

Camie Kim COMMUNICATION THAT WORKS

WEB camiekim.github.io • E-MAIL contact.camie@gmail.com

I have 20 years of experience as a technical writer and application developer. I can offer a superb command of the English language, analytical and programming skills, an educated and well-honed sense of design aesthetics, and the energy and drive to learn more.

EXPERIENCE

Agfa HealthCare, *Senior Technical Writer*

2005 – present, Waterloo, Ontario

Agfa provides diagnostic imaging and healthcare IT solutions. Working with a global team of product managers, developers, testers, and other writers, I write DITA-compliant XML and produce HTML help and PDFs for an audience of end-users, service engineers, and developers. I have written content for both front and backend systems (Windows, Solaris, Linux), documenting web services, scripts, configuration and load balancing guides, installations, migrations, and upgrades of complex systems, and more.

Stand Up Stand Out award, "For demonstrating an Agfa HealthCare value", 2015.

Stand Up Stand Out award, "For actions that have a significant impact on the organization, Company's bottom line, and/or customer relations", 2012.

Sun Life Insurance Co., *Application Developer II, I*

1999 – 2005, Waterloo, Ontario

Full-cycle mainframe application development in an IBM OS/390 environment: TSO/ISPF, PL/1, IMS, DB2, MQ Series, SAS, SQL, JCL, Zeke, and other mainframe utilities and middleware technologies.

Collaborated with architects, software engineers, business system analysts, and testing specialists to deliver high quality solutions for large-scale applications and systems.

Provided on-call support for the production environment on a rotating schedule.

The Mutual Group, *Technical Writer, Administrative Assistant*

1996 – 1999, Waterloo, Ontario

Initially hired as an administrative assistant, within a year I began working as a technical writer.

Using Adobe RoboHelp, Word, and other desktop publishing tools, wrote, edited, and published various online help files, tutorials, introductory materials, and promotional documents for software used by the sales force.

The Fields Institute, *Executive Assistant*

1994 – 1995, Toronto, Ontario

Assisted the two co-directors of this mathematical research institute, including scheduling, making all travel arrangements, organizing regular seminars, editing and distributing a monthly newsletter, and assisting in the preparation of grant proposals and academic papers.
